RE: Final Phase I RFI/RI Workplan for OU 10 - Other Outside Closures, July, 1992, Resubmitted Portions

Dear Mr. Lockhart,

The Colorado Department of Health, Hazardous Materials and Waste Management Division (the Division), has reviewed the above referenced document submitted by DOE and prime operating contractor, EG&G.

The Division is approving this document provided that DOE responds to the following conditions:

1. Paragraph 7.4.3: For each IHSS, please clarify how the GC will be calibrated for the soil gas survey. If either a general list or site-specific lists of suspected contaminants will be used, please place these lists in this section.

2. Page 7-55, second paragraph: Please clarify how the vertical profiles will be located and sampled based on the results of the HPGe/NaI surveys.

These conditions can be addressed by submitting only the portions of text or figures that are added or changed.

As we have previously stated, a new SOP GT.8 must be submitted for approval prior to the commencement of field work.

If you have any questions regarding these matters, please call John Reschl of my staff at 331-4803.

Sincerely,

Gary W. Baughman
Unit Leader, Hazardous Waste Facilities
Hazardous Materials and Waste Management Division
